Alessandro Panichi

AI FILM DIRECTOR · DIRECTION, GENERATION AND SOUND

Milan, Italy · ale.panichi1991@gmail.com · linkedin.com/in/alessandro-panichi-a72a75226 · Portfolio: alessandropanichiai.github.io

Profile

I make short films and corporate videos with artificial intelligence, from the idea to the final mix: direction, image and video generation, editing, music and sound design. I am a film school graduate specialised in sound. I am looking for a studio or company where image and sound are designed together.

Experience

AI Video Creator and Audio/AV Specialist INTERNSHIP — Sep 2025 – Sep 2026
Siemens S.p.A. — EngageMate, Communications · Milan

- **Emotion** (3'20"): short film screened in plenary to about 600 people at a company event; about 1,200 generations.
- **Confidential short** commissioned by Siemens (3'40"): about 1,600 generations, 92 shots, 160 hours; recognised with a company award.
- AI animations for an executive-level corporate presentation, working with the Communications team.
- Company podcast *In Viaggio Con* (Spotify): 6 episodes covering recording, editing, music and finishing.
- Live audio for about 30 events: Yamaha DM3 console, vMix and streaming integration, guest miking.

AI Director — private commission FREELANCE — 2026
Gio Paolo Molo · video for a live show

- 3'50" video about the last will of an 18th-century Lombard nobleman, made in two weeks.

Assistant Director, Sound Recordist and Audio Post-Production — 2024
Maria Cristina Carlini. The Courage of Greatness · documentary by Pino Farinotti and Tiziano Sossi

- 57-minute documentary premiered at MEET Digital Culture Center, Milan, and available on Amazon Prime Video.

Production Sound Mixer — 2023
Happy End, directed by Stefano Cutugno · Purple Entertainment

- Short film that won two awards at the International Film Festival Manhattan (New York, October 2023).

Education

Diploma in Cinema and Audiovisual Art and Technology, Sound — Jul 2025
Civica Scuola di Cinema "Luchino Visconti" · Milan

- Thesis: **THESYS**, a 15'25" science-fiction short made entirely with AI, on my own, over six months during my studies (500 hours), with a 5.1 mix in Pro Tools; written, directed and performed.
